**THE HONOURABLE EDNA ELIAS
COMMISSIONER OF NUNAVUT**

I have the honour to present the Public Accounts of Nunavut for the fiscal year ended March 31, 2013. I would ask that these accounts be laid before the Legislative Assembly in accordance with the *Financial Administration Act, R.S.N.W.T. 1988, c.F-4, S. 74* as amended, and duplicated for Nunavut, and the *Nunavut Act, S.C. 1993, C.28, s.44*.

The Honourable Keith Peterson
Minister of Finance

Government of Nunavut
Iqaluit, Nunavut

MANAGEMENT RESPONSIBILITY FOR FINANCIAL REPORTING

The preparation of these consolidated financial statements for the Government of Nunavut, and related information contained in the Public Accounts, is the responsibility of management through the Department of Finance.

The consolidated financial statements have been prepared in accordance with Canadian public sector accounting standards (PSAS), which represent generally accepted accounting principles for governments as recommended by the Public Sector Accounting Board of the Canadian Institute of Chartered Accountants. Where Canadian PSAS permits alternative accounting methods, management has chosen those it believes are most appropriate. Where required, management's best estimates and judgments have been applied in the preparation of these consolidated financial statements.

The Government fulfills its accounting and reporting responsibilities, through the Department of Finance, by maintaining systems of financial management and internal control. These systems are continually enhanced and modified to provide accurate information, to safeguard and control the Government's assets, and to ensure that all transactions are in accordance with the *Financial Administration Act*.

The Public Accounts are referred to the Standing Committee on Oversight of Government Operations and Public Accounts after they have been tabled in the Legislative Assembly. The recommendations of this Committee will be reviewed and acted upon, where appropriate, to improve financial management, financial reporting practices and the systems of internal control.

The Auditor General of Canada conducts an annual audit of the consolidated financial statements in order to express an opinion as to whether the statements present fairly, in all material respects, the financial position, results of operations and accumulated surplus, change in net financial assets and cash flow for the year. During the course of the audit, he also examines transactions that have come to his notice, to ensure that they are, in all significant respects, within the statutory powers of the Government and those organizations included in the consolidation. The Auditor General's opinion is included with the consolidated financial statements.

c.dh
Chris D'Arcy
Deputy Minister of Finance

INDEPENDENT AUDITOR'S REPORT

To the Legislative Assembly of Nunavut

Report on the Consolidated Financial Statements

I have audited the accompanying consolidated financial statements of the Government of Nunavut, which comprise the consolidated statement of financial position as at 31 March 2013, and the consolidated statement of operations and accumulated surplus, consolidated statement of change in net financial assets and consolidated statement of cash flow for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express an opinion on these consolidated financial statements based on my audit. I conducted my audit in accordance with Canadian generally accepted auditing standards. Those standards require that I comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Opinion

In my opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Government of Nunavut as at 31 March 2013, and the results of its operations, changes in its net financial assets, and its cash flows for the year then ended in accordance with Canadian public sector accounting standards.

Report on Other Legal and Regulatory Requirements

In my opinion, the transactions of the Government of Nunavut and those organizations listed in Note 1 to the consolidated financial statements that have come to my notice during my audit of the consolidated financial statements have, in all significant respects, been in accordance with the Government of Nunavut's powers under the *Nunavut Act*, the *Financial Administration Act* of Nunavut and regulations and the specific operating authorities disclosed in Note 1 to the consolidated financial statements.

Michael Ferguson, CPA, CA
FCA (New Brunswick)
Auditor General of Canada

**GOVERNMENT OF NUNAVUT
PUBLIC ACCOUNTS**

Notes to Consolidated Financial Statements

March 31, 2013

(in thousands of dollars)

1 AUTHORITY AND OPERATIONS

(a) Authority

The Government of Nunavut (the Government) operates under the authority of the *Nunavut Act* (Canada). The Government has an elected Legislative Assembly which authorizes disbursements, advances, loans and investments, except those specifically authorized by statute.

These consolidated financial statements are prepared to meet the financial reporting requirements in the *Nunavut Act* (Canada) and the *Financial Administration Act* (Nunavut). The consolidated financial statements present summary information and serve as a means for the Government to show its accountability for the resources, obligations and financial affairs for which it is responsible.

(b) Reporting entity

The reporting entity of the Government of Nunavut includes all departments, agencies, corporations, organizations, and funds, which are controlled by the Government. For financial reporting purposes, control is defined as the power to govern the financial and operating policies of an organization with benefits from the organization's activities being expected, or the risk of loss being assumed by the Government. All organizations that meet the definitions in the *Financial Administration Act* for departments, revolving funds, territorial corporations or other public agencies are included in the reporting entity (except for the Workers' Safety and Compensation Commission). The financial activities of all these entities are consolidated in these financial statements.

The following organizations comprise the reporting entity represented by these consolidated financial statements. Unless indicated otherwise they have March 31 year ends. These organizations are accountable to and are controlled by the Government.

	Authority for Operations
Consolidated Revenue Fund, including those departments and public agencies set out in the Government's Main Estimates	<i>Financial Administration Act</i>
Revolving Funds	<i>Revolving Funds Act</i>
Liquor Revolving Fund	
Petroleum Products Revolving Fund	
Public Stores Revolving Fund	
Student Loan Fund	
Territorial Corporations	
Nunavut Arctic College (<i>June 30</i>)	<i>Public Colleges Act</i>
Nunavut Business Credit Corporation	<i>Nunavut Business Credit Corporation Act</i>
Nunavut Development Corporation (including subsidiaries)	<i>Nunavut Development Corporation Act</i>
Nunavut Housing Corporation (including subsidiaries)	<i>Nunavut Housing Corporation Act</i>
Nunavut Lottery	<i>Partnership agreement</i>
Qulliq Energy Corporation	<i>Qulliq Energy Corporation Act</i>
District Education Authorities (<i>June 30</i>)	<i>Education Act</i>

All entities included in the reporting entity, except Nunavut Lottery, are fully consolidated on a line-by-line basis. Significant transactions and balances between fully consolidated entities are eliminated. Nunavut Lottery is accounted for as a government business partnership on a modified equity basis.

For segmented disclosure reporting purposes, summary information has been provided based on the accountability and control relationships between the Government and the various organizations within the reporting entity using categorization or groupings of organizations noted above.

(c) Budget

Canadian public sector accounting standards require a government to present in its financial statements a comparison of the results of operations and changes in net financial assets (debt) for the period with those originally planned.

The Government's annual budget presented to the Legislative Assembly is not prepared on a consolidated basis. As a result, the budget figures included in these consolidated financial statements are based on the summary totals provided on pages x through xiii of the 2012-2013 Main Estimates and the approved annual budgets for the consolidated entities, adjusted to eliminate budgeted inter-entity revenues and expenses as well as significant accounting policy differences. Where necessary, assumptions were used to estimate the inter-entity eliminations and accounting policy adjustments required. There was a \$76,500 provision for centrally estimated 'Supplementary Requirements' included in the 2012-2013 Main Estimates, \$25,000 of which was designated for 'Extraordinary/Unforeseen Events'. For purposes of consolidated budget disclosure in these consolidated financial statements that provision has been included in the Finance expense budget.

GOVERNMENT OF NUNAVUT**PUBLIC ACCOUNTS****Notes to Consolidated Financial Statements****March 31, 2013***(in thousands of dollars)***2 ADOPTION OF REVISED AND NEW PUBLIC SECTOR ACCOUNTING STANDARDS****(a) PS 3410 Government Transfers**

The revised government transfers standard recommends that the recognition of transfers revenue is only deferred when and to the extent that the transfer gives rise to an obligation that meets the definition of a liability. At April 1, 2012, deferred capital contributions of \$267,415 and deferred revenue of \$368 did not meet the definition of a liability. The revised standard has been applied retroactively without restatement of prior periods and comparative information, as follows.

	2013
April 1, 2012 - Accumulated surplus, beginning of year, as previously reported	1,585,078
Adjustment for impact of revised government transfers accounting standard	267,415
April 1, 2012 - Accumulated surplus, beginning of year	1,852,493
April 1, 2012 - Net financial assets (debt), beginning of year, as previously reported	(219,206)
Adjustment for impact of revised government transfers accounting standard	267,415
April 1, 2012 - Net financial assets (debt), beginning of year	48,209

(b) PS 3510 Tax Revenue

Effective April 1, 2012, under the new tax revenue standard, the most significant change is in relation to the classification of expenses. If an expense provides a financial benefit other than a relief of taxes, it is now classified as a transfer made through the tax system, such as the Nunavut child tax benefit and tobacco tax commissions. Alternatively, if an expense provides tax relief to a taxpayer and relates to revenue, this expense is considered a tax concession and is netted against tax revenues. The new standard has been applied on a prospective basis. The effect on the consolidated financial statements is to report the Nunavut child tax benefit and tobacco tax commissions as expenses instead of netting the amounts against tax revenues. For the year ended March 31, 2013, the effect of this change is to increase total revenues and total expenses by \$2,184 with no impact on the surplus for the year.

3 SIGNIFICANT ACCOUNTING POLICIES**(a) Basis of accounting**

These financial statements are prepared in accordance with Canadian public sector accounting standards (PSAS), which represent generally accepted accounting principles for the public sector as recommended by the Public Sector Accounting Board (PSAB) of the Canadian Institute of Chartered Accountants.

(b) Use of estimates and measurement uncertainty

The preparation of financial statements in accordance with Canadian PSAS requires the Government to make estimates and assumptions that affect the amounts of assets, liabilities, revenues and expenses reported in the financial statements. By their nature, these estimates and assumptions are subject to measurement uncertainty. The effect on the financial statements of changes to such estimates and assumptions in future periods could be significant, although, at the time of preparation of these financial statements, the Government believes the estimates and assumptions to be reasonable.

The more significant management estimates relate to other post-employment benefit liabilities, environmental liabilities, contingencies, revenue accruals, amortization expenses and valuation allowances on loans and other receivables.

(c) Cash and cash equivalents

Cash and cash equivalents are comprised of bank account balances, net of outstanding cheques, and short term highly liquid investments that are readily convertible to cash. Short term investments are recorded at the lower of cost or market value.

(d) Portfolio investments

Portfolio investments are long term investments in organizations that do not form part of the government reporting entity and are accounted for by the cost method. Such investments are normally in shares or bonds of the investee. Where there has been a loss in value of a portfolio investment that is other than a temporary decline, the investment is written down to recognize the loss, which is included as a component of investment income, which is part of other revenues within revenues generated by the Government of Nunavut. Interest income is recorded on the accrual basis, dividend income is recognized as it is declared, and capital gains and losses are recognized when realized.

(e) Inventories

Inventories for resale include bulk fuel, liquor products, finished goods and packaging materials and supplies. Bulk fuel, finished goods and packaging materials and supplies are valued at the lower of weighted average cost or net realizable value. Liquor products are valued at the lower of cost or net realizable value on a first-in, first-out basis.

Inventories for use include fuel, supplies and lubricants, health and medical supplies, and raw materials and work in progress. Fuel inventory is valued at the lower of cost or replacement cost, with the cost being determined on a weighted average basis. Supplies and lubricants, health and medical supplies, as well as raw materials and work in progress inventory items are valued at the lower of cost or replacement costs, with the cost being determined on a first-in, first-out basis.

(f) Loans receivable

Loans receivable are valued at the lower of cost or net recoverable value. Based on the circumstances known at the date the consolidated financial statements are prepared, including past events and current conditions, valuation allowances are recorded when collection is considered doubtful or when the value of a loan receivable is impaired. Interest revenue is recorded on an accrual basis when the collectability of both principal and interest are reasonably assured. An uncollectable or impaired loan receivable balance can be written off only upon receipt of required statutory approvals.

GOVERNMENT OF NUNAVUT**PUBLIC ACCOUNTS****Notes to Consolidated Financial Statements****March 31, 2013***(in thousands of dollars)***3 SIGNIFICANT ACCOUNTING POLICIES (continued)****(g) Non-financial assets**

Non-financial assets, including tangible capital assets, inventories for use and prepaid expenses, are recognized on the consolidated Statement of Financial Position only if they are expected to be used to provide government services in future years. These assets would not normally be used to provide financial resources to discharge liabilities of the Government unless they were sold. Non-financial assets are amortized or charged to expenses in future periods as they are used to provide or support the provision of government services.

(h) Tangible capital and leased assets

Tangible capital assets are non-financial assets whose useful life exceeds one fiscal year and are intended to be used on an ongoing basis for delivering government services. They may include such diverse items as buildings, vehicles, equipment, aircraft and computer hardware and software systems.

Tangible capital assets are recorded at cost or, where actual cost is not available, estimated current replacement cost is used. Gifted tangible capital assets are recorded at fair market value upon receipt.

Leased assets that meet the definition of a tangible capital asset, except that they are held under lease by the Government, are capitalized and reported as such if, in substance, their terms and conditions transfer substantially all of the benefits and risks of ownership to the Government. Legal ownership may not necessarily have been transferred. The lease liability and corresponding asset are recorded based on the present value of payments due over the course of the lease. The present value is based on the lower of the rate implicit in the lease or the Government's incremental borrowing rate at the time the obligation is incurred.

Tangible capital assets, when placed into service, are amortized using the straight line method at the following rates:

Asset Category	Amortization Period
Buildings	30 years
Leased Buildings	20-30 years
Storage Facilities	30 years
Tank Farms	30 years
Equipment	5-30 years
Warehouse and Equipment (QEC)	5-40 years
Electric Power Plants	20-40 years
Transmission Distribution Systems	20-40 years
Infrastructure	30 years
Land	Not amortized

In the year a tangible capital asset is acquired or put into service, amortization is taken for the full year. Tangible capital assets under construction or development are recorded as work in progress with no amortization taken until the year the asset is placed into service.

Tangible capital assets acquired by right, such as Crown lands, water and mineral resources, are not recorded in the financial statements. The cost of works of art and museum collections consisting mainly of paintings, sculptures, drawings, prints and photographs are charged to expense in the year they are acquired.

(i) Pension and other post-employment benefitsPension benefits

Substantially all of the employees of the Government of Nunavut are covered by the public service pension plan (the "Plan"), a contributory defined benefit plan established through legislation and sponsored by the Government of Canada. Contributions are required by both the employees and the Government of Nunavut to cover current service cost. Pursuant to legislation currently in place, the Government of Nunavut has no legal or constructive obligation to pay further contributions with respect to any past service or funding deficiencies of the Plan. Consequently, contributions are recognized as an expense in the year when employees have rendered service and represent the total pension obligation of the Government of Nunavut.

The costs and obligations for the Government's pension benefits to Members of the Legislative Assembly are determined on an actuarial basis. This is done to determine the present value of future entitlements and uses various assumptions. When actual experience varies from estimates, the adjustments needed are amortized over the estimated average remaining service lives of the contributors.

Other post-employment benefits

Under the terms and conditions of employment, Government employees may earn severance and removal benefits based on years of service. These benefits are paid upon resignation, retirement or death of the employee. The estimated liability and related expenses for these benefits are recorded as employees earn them. An actuarial valuation of the cost of these benefits has been prepared using data provided by management and assumptions based on management's best estimates. Termination benefits are recorded when employees are identified for lay-off.

GOVERNMENT OF NUNAVUT**PUBLIC ACCOUNTS****Notes to Consolidated Financial Statements**

March 31, 2013

(in thousands of dollars)

3 SIGNIFICANT ACCOUNTING POLICIES (continued)**(i) Revenues**

Unless otherwise stated, all revenues are recognized and reported on an accrual basis in the period in which transactions or events give rise to the revenues. Specific revenue accounting policies are as follows:

Transfers from the Government of Canada

Transfers from the Government of Canada are recognized as revenue when the funding is authorized and any eligibility criteria are met, except to the extent that funding stipulations give rise to an obligation that meets the definition of a liability and is recorded as deferred revenue.

Taxes and general revenues

Income tax revenue is recognized when the taxpayer has earned income that is subject to tax. Income tax is calculated net of tax deductions and credits allowed under the *Income Tax Act*. If an expense provides a financial benefit other than a relief of taxes, it is classified as a transfer made through the tax system. If an expense provides tax relief to a taxpayer and relates to revenue, this expense is considered a tax concession and is netted against tax revenues. Taxes, under the *Income Tax Act*, are collected by the Government of Canada on behalf of the Government of Nunavut under a tax collection agreement and are remitted to the Government. The remittances are based on the Government of Canada's estimates for the taxation year, which are periodically adjusted until the income tax assessments for the year are finalized. These income tax adjustments are accounted for in the year known.

Fuel, tobacco and payroll taxes are levied under the authority of the *Petroleum Products Tax Act*, the *Tobacco Tax Act* and the *Payroll Tax Act*, respectively. Revenues are recognized on an accrual basis based on the statements received from collectors or employers. Adjustments from reassessments are recorded in revenue in the year they are identified. Tobacco tax commissions on tobacco tax revenue provides a financial benefit other than a relief of taxes and is recorded as an expense.

Property taxes are assessed on a calendar year basis and are recorded on an accrual basis in the fiscal year.

Other taxes are accrued based on information provided by those parties which collect tax on the Government's behalf.

Recoveries of prior years expenditures

Recoveries of prior years expenditures through the Consolidated Revenue Fund, including reversals of prior years expenditure over-accruals, are reported as revenues in the consolidated financial statements. Pursuant to the *Financial Administration Act*, these recoveries cannot be used to increase the amount appropriated for current year expenditures through the Consolidated Revenue Fund.

(k) Expenses

Expenses are recorded on an accrual basis.

Transfers (e.g., grants and contributions) by the Government are recognized as expenses provided that the transfer is authorized and all eligibility criteria have been met by the recipient.

(l) Contractual obligations

The nature of the Government's activities requires negotiation of contracts that are significant in relation to its current financial position or that will materially affect the level of future expenses. Contractual obligations pertain to block funding agreements with municipalities, operating commercial leases, capital projects and operational funding commitments. Contractual obligations are not accrued until the terms of those contracts or agreements are met.

(m) Contingencies

The contingencies of the Government are potential liabilities which may become actual liabilities when one or more future events occur or fail to occur. If the future event is likely to occur and is quantifiable, an estimated liability is accrued. If the likelihood is not determinable or the amount cannot be reasonably estimated, the contingency is disclosed in the notes to the financial statements and no liability is accrued. Contingent liabilities result from potential environmental contingencies or pending litigation and like items.

GOVERNMENT OF NUNAVUT**PUBLIC ACCOUNTS****Notes to Consolidated Financial Statements****March 31, 2013***(in thousands of dollars)*

3 SIGNIFICANT ACCOUNTING POLICIES (continued)**(n) Environmental liabilities**

Environmental liabilities consist of the estimated costs related to the remediation of environmentally contaminated sites. An environmental liability is accrued and an expense recorded based on management's best estimates at the time the contamination occurs or when the Government becomes aware of the contamination and is obligated or is likely obligated to incur such costs. If the likelihood of the Government's obligation to incur these costs is not determinable or if an amount cannot be reasonably estimated, the contingency is disclosed in the notes to the financial statements and no liability is accrued. The environmental liabilities are reassessed on an annual basis.

(o) Financial instruments

The fair values of the Government's short term financial instruments, including accounts payable and accrued liabilities, cash and cash equivalents, portfolio and other investments (with terms of maturity of less than 12 months), due from the Government of Canada and other revenues receivable approximate their carrying amounts because of their short term to maturity.

The fair value of the Government's long term financial instruments, including long term debt, capital lease obligations, pension liabilities, other post-employment benefit liabilities, portfolio and other investments (with terms of maturity of greater than 12 months), and loans receivable, are detailed in the related notes. Where fair value amounts are not detailed, the carrying amounts approximate their fair value.

(p) Future changes in accounting standards

A number of new and amended standards issued by PSAB are not yet effective and have not been applied in preparing these consolidated financial statements. The following standards for governments will become effective as follows:

PS 3260 Liability for Contaminated Sites (effective April 1, 2014), a new standard providing guidance on the recognition, measurement and disclosure of liabilities for remediation of contaminated sites for which the government is or accepts responsibility for.

PS 3450 Financial Instruments (effective April 1, 2015), a new standard establishing guidance on the recognition, measurement, presentation and disclosure of financial instruments, including derivatives.

PS 2601 Foreign Currency Translation (effective April 1, 2015), replaces PS 2600 with revised guidance on the recognition, presentation and disclosure of transactions and balances that are denominated in a foreign currency.

PS 1201 Financial Statement Presentation (effective in the period PS 3450 and PS 2601 are adopted), replaces PS 1200 with revised general reporting principles and standards of presentation and disclosure for government financial statements.

PS 3041 Portfolio Investments (effective in the period PS 3450, PS 2601 and PS 1201 are adopted), replaces PS 3040 with revised guidance on accounting for, and presentation and disclosure of, portfolio investments.

The Government plans to adopt these new and amended standards on their effective dates and is currently assessing the impact they will have on its consolidated financial statements.

4 CASH AND CASH EQUIVALENTS

	2013	2012
Cash	387,220	241,025
Designated cash	2,504	2,208
Short term investments	91,456	82,467
	481,180	325,700

There is \$1,081 (2012 - \$5,066) of restricted cash being held in trust as a guarantee of Qulliq Energy Corporation's ability to pay an individual supplier for its capital commitments. Designated cash represents funds reserved for further investments or financing for subsidiary business enterprises and venture investments.

Cash and cash equivalents include investments in a diversified portfolio of high grade, short term income producing assets. The yield for the year ended March 31, 2013 varied from 0.55% to 5.38% (2012 - 0.15% to 2.50%). All instruments held are in high quality debt obligations, rated R-1 Low or better by DBRS (i.e., formerly known as the Dominion Bond Rating Service), with an average remaining term to maturity after year end of 93 days (2012 - 63 days).

5 PORTFOLIO AND OTHER INVESTMENTS

	2013 Effective Rate of Return	2013 Term to Maturity	2013 Carrying Value	2012 Carrying Value
Portfolio investments				
Provincial Governments	4.38%	2 to 5 years	5,601	5,601
Government of Canada	Variable	1 year	1,026	1,026
			6,627	6,627
Other investments				
SRAF designated investments			8,156	7,555
Venture investments			250	250
			15,033	14,432

The market value of the portfolio investments at March 31, 2013 was \$7,071 (2012 - \$7,049), with an average yield of 4.38% (2012 - 4.36%).

The Supplementary Retiring Allowances Fund (SRAF) of the Legislative Assembly investments cannot be used to discharge other obligations incurred by the Government. The investments are managed by a third party. The Statement of Investment Policy establishes the eligible classes of securities, categories of issuers, limits and terms. The market value of SRAF investments at March 31, 2013 was \$9,273 (2012 - \$7,956) with a positive return of 9.81% (2012 - 3.55%).

Venture investments include 250 Class D Preferred Limited Partnership units with a fixed cumulative annual distribution of 6.25% based on its investment. The shares are redeemable in March 2015.

Notes to Consolidated Financial Statements

March 31, 2013

(in thousands of dollars)

11 ENVIRONMENTAL LIABILITIES

	2013	2012
Liabilities for remediation of contaminated sites	10,799	11,346
	10,799	11,346

The Government recognizes that there are costs related to the remediation of environmentally contaminated sites for which it is responsible. As of March 31, 2013, there were 28 (2012 - 27) sites identified as potentially requiring environmental remediation. For those contaminated sites where the Government of Nunavut is responsible or has accepted responsibility, and an estimate could be determined for remediation costs, a liability has been recorded. Accruals have been established for 22 identified sites (2012 - 23 sites).

The Government's ongoing efforts to assess the remaining sites may result in additional environmental liabilities. These liabilities will be recorded in the year that they become known.

12 PENSION LIABILITIES

Public Service Pension Plan

Substantially all of the employees of the Government of Nunavut are covered by the public service pension plan (the "Plan"), a contributory defined benefit plan established through legislation and sponsored by the Government of Canada. Contributions are required by both the employees and the Government of Nunavut. The President of the Treasury Board of Canada sets the required employer contributions based on a multiple of the employees' required contribution. The general contribution rate effective at year end was 1.64 times for members enrolled before January 1, 2013 and 1.57 times for members enrolled beginning January 1, 2013 (2012 - 1.74). Total contributions of \$38,526 (2012 - \$37,995) were recognized as expense in the current year.

The Government of Canada holds a statutory obligation for the payment of benefits relating to the Plan. Pension benefits generally accrue up to a maximum period of 35 years at an annual rate of 2 percent of pensionable service times the average of the best five consecutive years of earnings. The benefits are coordinated with Canada/Québec Pension Plan benefits and they are indexed to inflation.

Legislative Assembly Retiring Allowances Plans

The Government of Nunavut sponsors two defined benefit pension plans for Members of the Legislative Assembly (MLAs). Both plans are administered by the Management and Services Board of the Legislative Assembly. The plans provide pensions based on length of service and final average earnings. They provide inflation protection based on increases in the Consumer Price Index.

The first plan is the Legislative Assembly Retiring Allowances Fund (LARAF), a registered and contributory defined benefit pension plan established under the *Legislative Assembly Retiring Allowances Act*. The Office of the Legislative Assembly operates a separate pension fund in trust to administer LARAF contributions and allowances. The fund came into effect on April 1, 1999.

The second plan is the Supplementary Retiring Allowances Fund (SRAF), a voluntary non-registered, non-contributory defined benefit pension plan established under the *Supplementary Retiring Allowances Act* for MLAs who elect to participate. Payments and expenses related to the SRAF are paid from the Government's consolidated revenue fund. This plan came into effect during the 2001-02 year, and provides for benefits retroactive to April 1, 1999.

There have been no plan amendments, plan settlements and curtailments or temporary deviations from these plans in 2013 (no changes in 2012).

Actuarial valuations were completed for these plans as of April 1, 2011. The valuations were based on a number of assumptions about future events including inflation rates (2.0%), interest rates (inflation, plus 2.8%), return on assets (inflation, plus 2.8%), increases in remuneration (inflation, plus 1.0%), and mortality. The assumptions used reflect the best estimates as approved by the Management and Services Board of the Legislative Assembly. The valuations were performed using the projected unit credit actuarial cost method. The asset valuation method, market-related value, for the LARAF plan is equal to a smoothed market value which spreads the difference between the actual and expected investment income over a four year period. The effective date of the next actuarial valuations for these plans is April 1, 2014.

GOVERNMENT OF NUNAVUT**PUBLIC ACCOUNTS****Notes to Consolidated Financial Statements****March 31, 2013**

(in thousands of dollars)

12 PENSION LIABILITIES (continued)

Retirement benefits are payable to a MLA based on a percentage of the average best earnings over four consecutive years as a MLA and as a Minister, Speaker or Chairperson (if applicable) multiplied by credited service as a MLA and for each of the three positions (if applicable). A position must be held for a least one year, and the pension for each position is calculated separately. The percentages used to calculate retirement benefits are 2% for the LARAF and 3% for the SRAF.

The normal retirement age under both of these plans is the earliest of (a) age 60, (b) 30 years of service, or (c) age plus service equals 80. A MLA may retire at any time upon ceasing to be a MLA. Early retirement results in a pension reduction of 0.25% for each month a MLA retires before the normal retirement age. The late retirement age for MLAs is up to age 69.

The pension liabilities represent the excess of the actuarial present value of accrued pension benefits over the actuarial value of net assets available for benefits.

Based on information provided for the year by the plans' actuary, the MLA pension liabilities as of March 31 are as follows.

	LARAF	SRAF	2013	2012
Accrued benefit obligation	6,357	8,161	14,518	12,680
Deduct:				
Pension fund assets	6,480	-	6,480	5,372
Unamortized actuarial (gain) loss	65	135	200	480
	6,545	135	6,680	5,852
Pension (asset) liability	(188)	8,026	7,838	6,828

As at March 31, 2013, LARAF pension fund assets had a market value of \$6,683 (2012 - \$5,448). The actual rate of return was positive 10.13% (2012 - 3.3%). The SRAF has no pension fund assets, however, the pension liability is funded all or in part by designated investments (Note 5).

LARAF and SRAF actuarial gains/losses are amortized over 1.6 and 1.7 years respectively (2012- 2.6 and 2.7 years respectively) which is the estimated average remaining service lives for contributors to these plans.

The total expenses related to MLA pensions include the following components.

	LARAF	SRAF	2013	2012
Current period benefit cost	783	1,116	1,899	1,697
Amortization of actuarial (gains) losses	47	87	134	268
MLAs contributions	830	1,203	2,033	1,965
(192)	-	(192)	(178)	
Pension expense	638	1,203	1,841	1,787
Interest cost on the average accrued benefit obligation	294	388	682	605
Expected return on the average pension plan assets	(287)	-	(287)	(229)
Pension interest expense	7	388	395	376
Total expenses related to pensions	645	1,591	2,236	2,163

Pension benefits paid for the LARAF and SRAF were \$106 and \$636, respectively (2012 - \$674 and \$620, respectively).

The Government's contributions related to the LARAF and SRAF during the year were \$589 and \$1,147, respectively (2012 - \$873 and \$950, respectively).

13 OTHER POST-EMPLOYMENT BENEFIT LIABILITIES

In addition to pension benefits, the government provides severance and removal benefits to employees. The cost of these benefits accrue either as employees render service or upon the occurrence of an event resulting in eligibility for benefits. These benefit arrangements are not prefunded and thus have no assets set aside to fund them, resulting in deficiencies for the arrangements equal to the accrued benefit obligations which are estimated actuarially using information and assumptions approved by management.

	2013	2012
Severance	14,652	14,793
Removal	9,386	9,916
	24,038	24,709

GOVERNMENT OF NUNAVUT**PUBLIC ACCOUNTS****Notes to Consolidated Financial Statements****March 31, 2013***(in thousands of dollars)***14 LONG TERM DEBT AND BORROWING AUTHORITY LIMIT**

Loans and mortgages payable	2013	2012
Loans payable to Canada Mortgage and Housing Corporation (CMHC), repayable in annual installments of \$2,285 to the year 2032, bearing interest at a rate of 6.97% (2012 - 6.97%).	15,264	16,387
Mortgage payable in annual instalments of \$554 to the year 2020, bearing interest at a rate of 6.9% (2012 - 6.9%) compounded semi-annually. The mortgage is secured by a building. The carrying value of the security is \$6,085 (2012 - \$6,396).	3,276	3,585
Redeemable 20 year amortizing debenture, bearing interest at a rate of 6.809% (2012 - 6.809%) due September 27, 2021. Repayable in blended semi-annual payments of \$2,848 with a balloon payment of \$17,502 at the end of the term.	44,941	47,448
Non-revolving fixed rate term loan facility with payments of \$42 due monthly with the final payment due on May 1, 2021. Interest at 4.24% in 2013.	3,451	3,799
Non-revolving fixed rate term loan facility with payments of \$53 due monthly with the final payment due on May 1, 2021. Interest at 4.24% in 2013.	4,404	4,846
Non-revolving fixed rate term loan facility with payments of \$74 due monthly with the final payment due on June 1, 2021. Interest at 4.24% in 2013.	6,182	6,799
Non-revolving fixed rate term loan facility with payments of \$30 due monthly with the final payment due on February 1, 2032. Interest at 4.24% in 2013.	4,618	4,775
Non-revolving fixed rate term loan facility with payments of \$133 due monthly with the final payment due on July 1, 2021. Interest at 4.24% in 2013.	11,188	12,285
Non-revolving fixed rate term loan with monthly payments of \$83 plus interest calculated at prime rate minus 50 bps per annum, beginning December 3, 2012. This facility has an option to Banker's Acceptance with stamping fees calculated at 50 bps per annum with terms not less than 7 days and not more than 365 days and issued and reissued in minimum aggregate amounts of Canadian \$1,000 and multiples thereof. The final payment is due on November 30, 2022 with the option to extend the termination date by up to 10 years, at the discretion of the lender.	19,667	-
	112,991	99,934

Principal and interest amounts due in each of the next five fiscal years and thereafter on the loans and mortgages payable are as follows:

	Principal	Interest	Total
2014	8,002	6,010	14,012
2015	8,417	5,570	13,987
2016	8,856	5,105	13,961
2017	9,222	4,611	13,833
2018	9,348	4,096	13,444
2019 and beyond	69,146	14,618	83,764
	112,991	40,010	153,001

Interest expense on long term debt was \$4,259 for the year (2012 - \$4,770). During the year, interest costs of \$2,089 (2012 - \$1,054) were capitalized as part of additions to tangible capital assets. The interest paid on long term debt during the year was \$6,389 (2012 - \$5,844).

GOVERNMENT OF NUNAVUT**PUBLIC ACCOUNTS****Notes to Consolidated Financial Statements****March 31, 2013**

(in thousands of dollars)

14 LONG TERM DEBT AND BORROWING AUTHORITY LIMIT (continued)**Borrowing Authority**

The Governor General in Council of Canada, pursuant to subsection 27(5) of the *Nunavut Act*, has approved the Government of Nunavut borrowing up to \$400 million (i.e., authorized borrowing limit).

	2013	2012
Qulliq Energy Corporation, long term debt	94,451	79,952
Nunavut Housing Corporation, long term debt	15,264	16,387
Consolidated Revenue Fund, mortgage payable	3,276	3,595
Capital lease obligations	69,489	79,609
	182,480	179,543
Qulliq Energy Corporation, bank overdraft liability	4,114	1,894
Nunavut Development Corporation, bank overdraft liability and subsidiary credit facilities	507	743
Total debt	187,101	182,180
Authorized borrowing limit	400,000	400,000
Available borrowing capacity	212,899	217,820

The Government of Nunavut guarantees the long term debt of Qulliq Energy Corporation and Nunavut Housing Corporation as well as the bank overdrafts of Qulliq Energy Corporation and Nunavut Development Corporation. As part of their financing, Nunavut Development Corporation subsidiaries have arranged various credit facilities at different terms and interest rates. Nunavut Development Corporation has provided a guarantee for these credit facilities.

Under the terms of the 1999 Social Housing Agreement (SHA), the Government of Canada originally provided funding to the Nunavut Housing Corporation (NHC) to build social housing assets in the form of long term mortgages payable to CMHC (referred to as section 79 debt under the SHA) and loans payable to CMHC (referred to as section 82 debt under the SHA). Under the SHA, the funding provided to NHC was used to reduce 100% of the section 79 debt and reduce by 5/9th of the section 82 debt, and to fund the related interest payments that NHC would make each year to CMHC. This funding receivable from CMHC and the related payments due by NHC each year on the long term debt payable to CMHC are offset, resulting in no exchange of cash between NHC and CMHC. The funding receivable from CMHC is recorded as a reduction of the corresponding long term debt payable. As the funding from CMHC and the corresponding repayments of long term debt are non-cash transactions, they have not been recorded in the consolidated statement of cash flow.

15 CAPITAL LEASE OBLIGATIONS

Capital lease obligations are based upon contractual minimum lease payments for leases in effect as of March 31.

	2013	2012
Total minimum lease payments	90,667	107,355
Less: imputed interest	(19,536)	(24,872)
Less: executory costs	(1,642)	(2,874)
Present value of minimum lease payments	69,489	79,609

Minimum lease payments, including principal, interest and executory costs, for each of the next 5 years and thereafter are as follows:

	Principal	Interest	Executory	Total
2014	10,436	4,523	1,090	16,049
2015	9,056	3,773	476	13,305
2016	8,067	3,174	26	11,267
2017	8,656	2,596	26	11,278
2018	9,252	1,982	24	11,258
2019 and beyond	24,022	3,488	-	27,510
	69,489	19,536	1,642	90,667

Lease payments are allocated between repayments of the liability, interest expense and any related executory costs. The total minimum lease payments less the initial liability and executory costs represents the total interest cost of the lease. The interest expense is calculated using the same discount rate used in computing the present value of the minimum lease payments applied to the outstanding lease liability at the beginning of the lease payment period.

Interest expense related to capital lease obligations for the year was \$5,334 (2012 - \$6,081) at an implied average interest rate of 7.7% (2012 - 7.6%). The capital lease obligations expire between 2014 and 2027.

	1,757,541	1,663,481

18 CONTRACTUAL OBLIGATIONS

The Government has entered into agreements for, or is contractually obligated for, the following payments subsequent to March 31, 2013:

	Year of Expiration	Total
Commitments under operating leases	2027	159,958
Capital commitments	2016	45,221
Policing agreement	2032	684,000
Other commitments	2023	78,569
		967,748

Contractual obligations by fiscal year are as follows:

	2014	2015	2016	2017	2018	2019 and beyond	Total
							152,982
							89,408
							68,766
							59,456
							55,083
							542,053
							967,748

In addition to the above, in fiscal 2011, as a result of a public request for proposal, the Government entered into contract arrangements for the supply of petroleum products for a five year term, ending after the 2015 re-supply season. Under the terms of this agreement, estimated minimum fuel volume purchases for the 2013 summer re-supply season are as follows.

	Total
	<i>(thousands of litres)</i>
Diesel	15,382
Gasoline	2,483
Jet fuel	3,390
	21,255

There are no estimated minimum fuel volume purchases for the 2014 or 2015 summer re-supply seasons outlined in the agreement.

GOVERNMENT OF NUNAVUT**PUBLIC ACCOUNTS****Notes to Consolidated Financial Statements**

March 31, 2013

(in thousands of dollars)

19 CONTINGENCIES**(a) Post-division adjustments**

The agreement governing the division of assets and liabilities between the Government of Nunavut and the Government of the Northwest Territories as at April 1, 1999 sets out a mechanism which provides for post-division adjustments.

The period for such adjustments is unlimited; and such adjustments could be made in a variety of specified circumstances such as the settlement of litigation related to events prior to the date of division. In such an event, there is an opportunity for one of the governments to file a claim against the other government to share in costs. Post-division adjustments will be recognized in the year the liability can be reasonably estimated. As at March 31, 2013, no new post-division adjustments were recorded.

(b) Environmental restoration costs

The Government recognizes that there are costs related to the restoration of any contaminated sites situated on lands within the Territory. Liabilities have been accrued in the consolidated financial statements when it has been determined that the Government is liable for a contaminated site and where a reasonable estimate of the remediation costs can be made. The Government's ongoing efforts to assess contaminated sites may result in additional environmental liabilities related to newly identified sites, or changes in the assessments or intended use of existing sites. Any additional liabilities will be accrued in the year in which they become known.

The Government will continue to implement a program of site inspection, assessment and remediation on an ongoing basis. To facilitate this, the Government has established a committee to ensure all existing and potential liabilities are identified and appropriate actions initiated. This is an ongoing process which should show continuous improvement each year as the Government continues to work in a practical manner towards the determination and appropriate recognition of its environmental liabilities within the Territory.

(c) Litigation

A number of cases of alleged sexual abuse by former employees or contractors in Nunavut when it was part of the Northwest Territories have been filed or are pending. The Nunavut and the Northwest Territories governments will jointly defend any such proceedings and the cost of defending the actions and any damages that may eventually be awarded will be shared by the two governments 44.34% and 55.66%, respectively. An estimate of any liability that may result from these actions is not determinable at this time; consequently no liability has been accrued.

There are a number of claims and threatened litigation cases outstanding against the Government for which the outcomes are not determinable, including a number of cases where an amount is not specified. The nature of these claims include wrongful dismissal, breach of policy, personal injury, sexual abuse, negligence, wrongful arrest and assault. As of March 31, 2013, all of these claims have been assessed as being either without merit or not determinable at this time.

(d) Pay Equity

There are a number of pay equity claims outstanding against the Government of Nunavut primarily for job rating evaluations of specific trades. The Government is working with Nunavut Employees Union in order to resolve the claims. However, the outcome of these claims is not currently known. As of March 31, 2013, no provision has been made in these consolidated financial statements.

(e) Other

Under the terms of the Social Housing Agreement with Canadian Mortgage and Housing Corporation (CMHC), Nunavut Housing Corporation (NHC) is responsible for the administration of a number of loans to third parties, where CMHC is the lender or insurer of these loans. The agreement provides that NHC shall indemnify and reimburse CMHC for, and save it harmless from, all losses, costs and expenses related to these loans. The value of these third party loans is approximately \$2,413 as at March 31, 2013 (2012 - \$2,632).

20 PROJECTS FUNDED UNDER THIRD-PARTY AGREEMENTS

Under agreements with the Government of Canada and others, the government receives full or partial funding for eligible expenses incurred on various specific projects. The following is a summary of the various project-related revenues and expenses funded during the year.

	2013	2012
Revenues		
From the Government of Canada	110,764	108,095
From others	2,407	4,499
Total revenues	113,171	112,594
Expenses		
Compensation and benefits	16,433	16,390
Grants and contributions	12,431	12,463
Other expenses	75,785	78,074
Amortization of tangible capital assets	5,700	5,667
Total expenses	110,349	112,594

23 CONSOLIDATED BUDGET

The schedule below reconciles the Government's budget presented to the Legislative Assembly to the consolidated budget totals for 2012-13 reported in the Consolidated Statement of Operations and Accumulated Surplus.

	Budget Per Main Estimates	Budgets of Territorial Corporations	Budgeted Consolidation Adjustments	Consolidated Budget
	(1)	(2)	(3)	
Revenues				
From the Government of Canada	1,482,300	30,700	-	1,513,000
From the Government of Nunavut	-	253,300	(253,300)	-
Revenues generated by the Government of Nunavut	299,000	135,500	(109,900)	324,600
Total revenues	1,781,300	419,500	(363,200)	1,837,600
Expenses				
Community and Government Services	470,300	-	(54,700)	415,600
Health and Social Services	415,200	-	(600)	414,600
Education	289,700	55,800	(46,700)	298,800
Housing	173,400	242,800	(194,400)	221,800
Finance	92,400	107,700	(58,100)	142,000
Economic Development and Transportation	101,000	11,200	(4,600)	107,600
Justice	97,200	-	-	97,200
Culture and Heritage	35,900	-	(300)	35,600
Environment	25,300	-	-	25,300
Executive and Intergovernmental Affairs	24,600	-	-	24,600
Human Resources	24,100	-	(300)	23,800
Legislative Assembly	17,500	-	-	17,500
Total expenses	1,766,600	417,500	(359,700)	1,824,400
Surplus for year	14,700	2,000	(3,500)	13,200

(1) The budgeted totals originally presented to the Legislative Assembly have been adjusted for the projected supplementary requirements, principal payments on capital leases, amortization and transfers to tangible capital assets included in the 2012-2013 Main Estimates and Capital Estimates. Further, budgeted revenues generated by the Government of Nunavut shown on a net basis in the Main Estimates have been increased \$178,700 to reclassify cost of goods sold (COGS) of revolving funds to expenses. Budgeted expenses of Finance and Community and Government Services have been increased by \$2,800 and \$175,900 respectively to reflect the COGS of the revolving funds.

(2) The budgets of the territorial corporations have been allocated to the government's expense lines based on their ministerial reporting relationship.

(3) The budgeted consolidation adjustments are based on amounts budgeted by the territorial corporations and government departments or where necessary estimated based on historical experience.

(in thousands of dollars)

24 SUBSEQUENT EVENTS

In September 2013, the Government signed agreements as part of a public-private partnership arrangement to design, build, finance, operate and maintain new and updated infrastructure at the Iqaluit International Airport. The design and construction components are scheduled to be completed by December 2017 at an estimated cost of \$299.0 million. The operations and maintenance components are scheduled to start July 2014 at an estimated net present cost of \$191.8 million over the life of the contract, which ends in December 2048. The capital costs of the arrangements will be partially funded by up to \$73 million from PPP Canada.

The Federal Government, in its proposed budget for 2013-14, announced new funding in the amount of \$100 million for housing in Nunavut. This funding is to be disbursed through two supplementary agreements to the existing 2011-14 Investment in Affordable Housing agreement: Supplementary Agreement No 1 worth \$30 million for fiscal 2013-14 and Supplementary Agreement No 2 worth \$70 million for fiscal 2014-15.

25 COMPARATIVE INFORMATION

Surplus for year	134,325	(12,244)	2,232	124,313	(4,867)	119,446	97,193

(1) - Includes adjustments to eliminate inter-entity balances to comply with Canadian public sector accounting standards. For example, contributions by departments to revolving funds, territorial corporations and other agencies (i.e., consolidated entities) are shown in grants and contributions expense under the "Consolidated Revenue Fund" column, while the amounts received by the applicable consolidated entity group are shown as revenues in their respective columns. These amounts are eliminated upon consolidation to avoid double-counting and results in significant amounts shown in the 'Consolidation Adjustments' column.

Increase (decrease) in cash and cash equivalents	154,333	26,498
Cash and cash equivalents, beginning of year	215,426	188,928
Cash and cash equivalents, end of year (Note 4)	369,759	215,426

The accompanying notes and schedules are an integral part of these non-consolidated financial statements.

GOVERNMENT OF NUNAVUT**PUBLIC ACCOUNTS****Notes to Non-Consolidated Financial Statements (unaudited)****March 31, 2013***(in thousands of dollars)*

1 AUTHORITY AND OPERATIONS**(a) Government of Nunavut**

The Government of Nunavut (the Government) operates under the authority of the *Nunavut Act* (Canada). The Government has an elected Legislative Assembly which authorizes disbursements, advances, loans and investments, except those specifically authorized by statute.

(b) Main Estimates

The 2012-2013 Main Estimates were tabled in the Legislative Assembly in February 2012 and represent the Government's fiscal plan for the year (i.e., original budget). Summary information and totals for government's original budget for the year are provided on pages x through xiii of the 2012-2013 Main Estimates. Planned Vote 5 revenues and Vote 4 expenses represent the share of eligible costs to be funded under agreements with the Government of Canada or others, and while not part of the annual Appropriations Act approved by the Legislative Assembly in March 2012, they are, along with those of revolving funds, included in the original budget totals disclosed in these financial statements.

2 ADOPTION OF REVISED AND NEW PUBLIC SECTOR ACCOUNTING STANDARDS**(a) PS 3410 Government Transfers**

The revised government transfers standard recommends that the recognition of transfers revenue is only deferred when and to the extent that the transfer gives rise to an obligation that meets the definition of a liability. At April 1, 2012, deferred capital contributions of \$76,336 did not meet the definition of a liability. The revised standard has been applied retroactively without restatement of prior periods and comparative information, as follows:

	2013
April 1, 2012 - Accumulated surplus, beginning of year, as previously reported	1,025,328
Adjustment for impact of revised government transfers accounting standard	76,336
April 1, 2012 - Accumulated surplus, beginning of year	1,101,664
April 1, 2012 - Net financial assets (debt), beginning of year, as previously reported	21,922
Adjustment for impact of revised government transfers accounting standard	76,336
April 1, 2012 - Net financial assets (debt), beginning of year	98,258

(b) PS 3510 Tax Revenue

Effective April 1, 2012, under the new tax revenue standard, the most significant change is in relation to the classification of expenses. If an expense provides a financial benefit other than a relief of taxes, it is now classified as a transfer made through the tax system, such as the Nunavut child tax benefit and tobacco tax commissions. Alternatively, if an expense provides tax relief to a taxpayer and relates to revenue, this expense is considered a tax concession and is netted against tax revenues. The new standard has been applied on a prospective basis. The effect on the non-consolidated financial statements is to report the Nunavut child tax benefit and tobacco tax commissions as expenses instead of netting the amounts against tax revenues. For the year ended March 31, 2013, the effect of this change is to increase total revenues and total expenses by \$2,184 with no impact on the surplus for the year.

3 SIGNIFICANT ACCOUNTING POLICIES**(a) Basis of accounting**

These non-consolidated financial statements are prepared in accordance with Canadian public sector accounting standards (PSAS), which represent generally accepted accounting principles for the public sector as recommended by the Public Sector Accounting Board of the Canadian Institute of Chartered Accountants, with the exception that they are not consolidated and certain revenues are reported net of expenses. That is, the petroleum products division and liquor revenues are reported net of their cost of goods sold.

Pursuant to Section 74 of the *Financial Administration Act*, the Government also prepares consolidated financial statements, which provide an accounting of the full nature and extent of the financial affairs and resources for which the Government is responsible. The consolidated reporting entity is defined in those statements.

GOVERNMENT OF NUNAVUT**PUBLIC ACCOUNTS****Notes to Non-Consolidated Financial Statements (unaudited)**

March 31, 2013

(in thousands of dollars)

3 SIGNIFICANT ACCOUNTING POLICIES (continued)**(b) Reporting entity**

These financial statements include the assets, liabilities and operating results of the Government's Consolidated Revenue Fund, including departments included in the Main Estimates, as well as the following revolving funds:

Liquor Revolving Fund
Petroleum Products Revolving Fund
Public Stores Revolving Fund
Student Loan Fund

Revolving funds are established by the Government to provide the required working capital to deliver goods and services to the general public and to Government departments.

The following public agencies are included in these non-consolidated financial statements only to the extent of the Government's contributions to and services received from or provided to them during the year:

Territorial corporations
- Nunavut Arctic College
- Nunavut Business Credit Corporation
- Nunavut Development Corporation
- Nunavut Housing Corporation
- Qulliq Energy Corporation

Other public agencies
- District Education Authorities
- Human Rights Tribunal
- Inuit Uqausinginnik Taiguusiliuqtiiit
- Labour Standards Board
- Legal Services Board
- Liquor Commission
- Nunavut Liquor Licensing Board
- Office of the Public Trustee
- Qulliit Nunavut Status of Women Council

Nunavut Lottery, which operates as a government business partnership, is recorded in these non-consolidated financial statements based on the contributions received during the year from the net results of lottery sales and activities in Nunavut.

(c) Use of estimates and measurement uncertainty

The preparation of financial statements in accordance with Canadian PSAS requires the Government to make estimates and assumptions that affect the amounts of assets, liabilities, revenues and expenses reported in the financial statements. By their nature, these estimates and assumptions are subject to measurement uncertainty. The effect on the financial statements of changes to such estimates and assumptions in future periods could be significant, although, at the time of preparation of these financial statements, the Government believes the estimates and assumptions to be reasonable. The more significant areas where estimates and assumptions have been used to prepare these financial statements include:

- (i) Income tax revenues collected by the Government of Canada on the Government's behalf.
- (ii) Allowance for doubtful accounts, loan valuation allowances, provision for losses on loan guarantees, amortization of tangible capital assets, environmental liabilities, contingencies and other post-employment benefit liabilities.

(d) Cash and cash equivalents

Cash and cash equivalents are comprised of bank account balances, net of outstanding cheques, and short term highly liquid investments that are readily convertible to cash. Short term investments are recorded at the lower of cost or market value.

(e) Inventories

Inventories for resale include bulk fuel and liquor products. Bulk fuel is valued at the lower of weighted average cost or net realizable value. Liquor products are valued at the lower of cost or net realizable value on a first-in, first-out basis. Inventory for use includes health and medical supplies valued at the lower of cost or replacement cost, with the cost being determined on a first-in, first-out basis.

(f) Loans receivable

Loans receivable are valued at the lower of cost or net recoverable value. Based on the circumstances known at the date the financial statements are prepared, including past events and current conditions, valuation allowances are recorded when collection is considered doubtful or when the value of a loan receivable is impaired. Interest revenue is recorded on an accrual basis when the collectability of both principal and interest are reasonably assured. An uncollectible or impaired loan receivable balance can be written off only upon receipt of required statutory approvals.

GOVERNMENT OF NUNAVUT**PUBLIC ACCOUNTS****Notes to Non-Consolidated Financial Statements (unaudited)**

March 31, 2013

(in thousands of dollars)

3 SIGNIFICANT ACCOUNTING POLICIES (continued)**(g) Non-financial assets**

Non-financial assets, including tangible capital assets, inventories for use and prepaid expenses, are recognized on the Statement of Financial Position only if they are expected to be used to provide government services in future years. These assets would not normally be used to provide financial resources to discharge liabilities of the Government unless they were sold. Non-financial assets are amortized or charged to expenses in future periods as they are used to provide or support the provision of government services.

(h) Tangible capital and leased assets

Tangible capital assets are non-financial assets whose useful life exceeds one fiscal year and are intended to be used on an ongoing basis for delivering government services. They may include such diverse items as buildings, vehicles, equipment, aircraft and computer hardware and software systems.

Tangible capital assets are recorded at cost or, where actual cost is not available, estimated current replacement cost is used. Gifted tangible capital assets are recorded at fair market value upon receipt.

Leased assets that meet the definition of a tangible capital asset, except that they are held under lease by the Government, are capitalized and reported as such if, in substance, their terms and conditions transfer substantially all of the benefits and risks of ownership to the Government. Legal ownership may not necessarily have been transferred. The lease liability and corresponding asset are recorded based on the present value of payments due over the course of the lease. The present value is based on the lower of the rate implicit in the lease or the Government's incremental borrowing rate at the time the obligation is incurred.

Tangible capital assets, when placed into service, are amortized on a straight-line basis over their estimated useful life based on the following rates:

Asset Category	Amortization Period
Buildings	30 years
Leased Buildings	30 years
Infrastructure	30 years
Tank Farms	30 years
Storage Facilities	30 years
Equipment	5-30 years
Land	Not amortized

In the year a tangible capital asset is acquired or put into service, amortization is taken for the full year. Tangible capital assets under construction or development are recorded as work in progress with no amortization taken until the year the asset is placed into service.

Tangible capital assets acquired by right, such as Crown lands, water and mineral resources, are not recorded in the financial statements. The cost of works of art and museum collections consisting mainly of paintings, sculptures, drawings, prints and photographs are charged to expense in the year they are acquired.

(i) Pension and other post-employment benefits**Pension benefits**

Substantially all of the employees of the Government of Nunavut are covered by the public service pension plan (the "Plan"), a contributory defined benefit plan established through legislation and sponsored by the Government of Canada. Contributions are required by both the employees and the Government of Nunavut to cover current service cost. Pursuant to legislation currently in place, the Government of Nunavut has no legal or constructive obligation to pay further contributions with respect to any past service or funding deficiencies of the Plan. Consequently, contributions are recognized as an expense in the year when employees have rendered service and represent the total pension obligation of the Government of Nunavut.

The costs and obligations for the Government's pension benefits to Members of the Legislative Assembly are determined on an actuarial basis. This is done to determine the present value of future entitlements and uses various assumptions. When actual experience varies from estimates, the adjustments needed are amortized over the estimated average remaining service lives of the contributors.

Other post-employment benefits

Under the terms and conditions of employment, Government employees may earn severance and removal benefits based on years of service. These benefits are paid upon resignation, retirement or death of the employee. The estimated liability and related expenses for these benefits are recorded as employees earn them. An actuarial valuation of the cost of these benefits has been prepared using data provided by management and assumptions based on management's best estimates. Termination benefits are recorded when employees are identified for lay-off.

GOVERNMENT OF NUNAVUT**PUBLIC ACCOUNTS****Notes to Non-Consolidated Financial Statements (unaudited)****March 31, 2013***(In thousands of dollars)*

3 SIGNIFICANT ACCOUNTING POLICIES (continued)**(j) Revenues**

Unless otherwise stated, all revenues are recognized and reported on an accrual basis in the period in which transactions or events give rise to the revenues. Specific revenue accounting policies are as follows:

Transfers from the Government of Canada

Transfers from the Government of Canada are recognized as revenue when the funding is authorized and any eligibility criteria are met, except to the extent that funding stipulations give rise to an obligation that meets the definition of a liability and is recorded as deferred revenue.

Taxes and general revenues

Income tax revenue is recognized when the taxpayer has earned income that is subject to tax. Income tax is calculated net of tax deductions and credits allowed under the *Income Tax Act*. If an expense provides a financial benefit other than a relief of taxes, it is classified as a transfer made through the tax system. If an expense provides tax relief to a taxpayer and relates to revenue, this expense is considered a tax concession and is netted against tax revenues. Taxes, under the *Income Tax Act*, are collected by the Government of Canada on behalf of the Government of Nunavut under a tax collection agreement and are remitted to the Government. The remittances are based on the Government of Canada's estimates for the taxation year, which are periodically adjusted until the income tax assessments for the year are finalized. These income tax adjustments are accounted for in the year known.

Fuel, tobacco, and payroll taxes are levied under the authority of the *Petroleum Products Tax Act*, the *Tobacco Tax Act* and the *Payroll Tax Act*, respectively. Revenues are recognized on an accrual basis based on the statements received from collectors or employers. Adjustments from reassessments are recorded in revenue in the year they are identified. Tobacco tax commission on tobacco tax revenue provides a financial benefit other than relief of taxes and is recorded as an expense.

Property taxes are assessed on a calendar year basis and are recorded on an accrual basis in the fiscal year.

Other taxes are accrued based on information provided by those parties which collect tax on the Government's behalf.

Recoveries of prior years expenditures

Recoveries of prior years expenditures, including reversals of prior years expenditure over-accruals, are reported separately from other revenues on the statement of operations. Pursuant to the subsection 36(9) of the *Financial Administration Act*, these recoveries cannot be used to increase the amount appropriated for current year expenditures.

(k) Expenses

Expenses are recorded on an accrual basis.

Transfers (e.g., grants and contributions) by the Government are recognized as expenses provided that the transfer is authorized and all eligibility criteria have been met by the recipient.

(l) Contractual obligations and contingencies

The nature of the Government's activities requires negotiation of contracts that are significant in relation to its current financial position or that will materially affect the level of future expenses. Contractual obligations pertain to block funding agreements with municipalities, operating commercial leases, capital projects, and operational funding commitments. Contractual obligations are not accrued until the terms of those contracts or agreements are met.

The contingencies of the Government are potential liabilities which may become actual liabilities when one or more future events occur or fail to occur. If the future event is likely to occur and is quantifiable, an estimated liability is accrued. If the likelihood is not determinable or the amount cannot be reasonably estimated, the contingency is disclosed in the notes to the financial statements and no liability is accrued. Contingent liabilities result from potential environmental contingencies or pending litigation and like items.

GOVERNMENT OF NUNAVUT**PUBLIC ACCOUNTS****Notes to Non-Consolidated Financial Statements (unaudited)****March 31, 2013***(in thousands of dollars)*

3 SIGNIFICANT ACCOUNTING POLICIES (continued)**(m) Environmental liabilities**

Environmental liabilities consist of the estimated costs related to the remediation of environmentally contaminated sites. An environmental liability is accrued and an expense recorded based on management's best estimates at the time the contamination occurs or when the Government becomes aware of the contamination and is obligated or is likely obligated to incur such costs. If the likelihood of the Government's obligation to incur these costs is not determinable or if an amount cannot be reasonably estimated, the contingency is disclosed in the notes to the financial statements and no liability is accrued. The environmental liabilities are reassessed on an annual basis.

(n) Financial instruments

The fair values of the Government's short term financial instruments, including accounts payable and accrued liabilities, cash and cash equivalents, portfolio and other investments (with terms of maturity less than 12 months), due from the Government of Canada and other revenues receivable, approximate their carrying amounts because of their short term to maturity.

The fair value of the Government's long term financial instruments, including long term debt, capital lease obligations, pension liabilities, other post-employment benefit liabilities, portfolio and other investments (with terms of maturity of greater than 12 months), and loans receivable are detailed in the related notes. Where fair value amounts are not detailed, the carrying amounts approximate their fair value.

(o) Future changes in accounting standards

A number of new and amended standards issued by PSAB are not yet effective and have not been applied in preparing these financial statements. The following standards for governments will become effective as follows:

PS 3260 Liability for Contaminated Sites (effective April 1, 2014), a new standard providing guidance on the recognition, measurement and disclosure of liabilities for remediation of contaminated sites for which the government is or accepts responsibility for.

PS 3450 Financial Instruments (effective April 1, 2015), a new standard establishing guidance on the recognition, measurement, presentation and disclosure of financial instruments, including derivatives.

PS 2601 Foreign Currency Translation (effective April 1, 2015), replaces PS 2600 with revised guidance on the recognition, presentation and disclosure of transactions and balances that are denominated in a foreign currency.

PS 1201 Financial Statement Presentation (effective in the period PS 3450 and PS 2601 are adopted), replaces PS 1200 with revised general reporting principles and standards of presentation and disclosure for government financial statements.

PS 3041 Portfolio Investments (effective in the period PS 3450, PS 2601 and PS 1201 are adopted), replaces PS 3040 with revised guidance on accounting for, and presentation and disclosure of, portfolio investments.

The Government plans to adopt these new and amended standards on their effective dates and is currently assessing the impact they will have on its financial statements.

4 CASH AND CASH EQUIVALENTS

	2013	2012
Cash	349,621	182,476
Short term investments	20,138	32,950
	<hr/> 369,759	<hr/> 215,426

During the year, government earned interest of prime less 1.75% on its net bank balances. At year end, short term investments were held in guaranteed investment certificates and short term money market treasury investments. The market yield of this portfolio ranged from 1.25% to 1.67% in 2013 (2012 - 1.30% to 1.96%). All instruments held are in high quality debt obligations, rated R-1 Low or better by DBRS (i.e., formerly known as the Dominion Bond Rating Service), with an average remaining term to maturity after year end of 112 days (2012 - 65 days).

Qulliq Energy Corporation	7,511	6,904
	16,440	15,271
To others		
Accounts payable	94,946	94,852
Accrued liabilities, payroll deductions, and contractor holdbacks	61,340	69,490
Vacation pay and lieu time	28,468	26,349
Due to the Government of Canada	25,995	23,818
Due to the Government of the Northwest Territories	5,144	8,579
	215,893	223,088
	232,333	238,359

11 DEFERRED REVENUES

	2013	2012
Provincial-Territorial Base Funding (Building Canada Fund)	70,415	66,471
Gas Tax Agreement	26,662	21,310
Other deferred revenue	10,818	6,315
	107,895	94,096

12 ENVIRONMENTAL LIABILITIES

	2013	2012
Liabilities for remediation of contaminated sites	10,799	11,346

The Government recognizes that there are costs related to the remediation of environmentally contaminated sites for which it is responsible. As of March 31, 2013, there were 28 (2012 - 27) sites identified as potentially requiring environmental remediation. For those contaminated sites where the Government of Nunavut is responsible or has accepted responsibility, and an estimate could be determined for remediation costs, a liability has been recorded. Accruals have been established for 22 identified sites (2012 - 23 sites).

The Government's ongoing efforts to assess the remaining sites may result in additional environmental liabilities. These liabilities will be recorded in the year that they become known.

GOVERNMENT OF NUNAVUT**PUBLIC ACCOUNTS****Notes to Non-Consolidated Financial Statements (unaudited)****March 31, 2013***(in thousands of dollars)*

13 PENSION LIABILITIES**(a) Public Service Pension Plan**

Substantially all of the employees of the Government of Nunavut are covered by the public service pension plan (the "Plan"), a contributory defined benefit plan established through legislation and sponsored by the Government of Canada. Contributions are required by both the employees and the Government of Nunavut. The President of the Treasury Board of Canada sets the required employer contributions based on a multiple of the employees' required contribution. The general contribution rate effective at year end was 1.64 times for members enrolled before January 1, 2013 and 1.57 times for members enrolled beginning January 1, 2013 (2012 - 1.74). Total contributions of \$33,128 (2012 - \$32,675) were recognized as expense in the current year.

The Government of Canada holds a statutory obligation for the payment of benefits relating to the Plan. Pension benefits generally accrue up to a maximum period of 35 years at an annual rate of 2 percent of pensionable service times the average of the best five consecutive years of earnings. The benefits are coordinated with Canada/Québec Pension Plan benefits and they are indexed to inflation.

(b) Legislative Assembly Retiring Allowances Plans

The Government of Nunavut sponsors two defined benefit pension plans for Members of the Legislative Assembly (MLAs). Both plans are administered by the Management and Services Board of the Legislative Assembly. The plans provide pensions based on length of service and final average earnings. They provide inflation protection based on increases in the Consumer Price Index.

The first plan is the Legislative Assembly Retiring Allowances Fund (LARAF), a registered and contributory defined benefit pension plan established under the *Legislative Assembly Retiring Allowances Act*. The Office of the Legislative Assembly operates a separate pension fund in trust to administer LARAF contributions and allowances. The fund came into effect on April 1, 1999.

The second plan is the Supplementary Retiring Allowances Fund (SRAF), a voluntary non-registered, non-contributory defined benefit pension plan established under the *Supplementary Retiring Allowances Act* for MLAs who elect to participate. Payments and expenses related to the SRAF are paid from the Government's consolidated revenue fund. This plan came into effect during the 2001-02 fiscal year, and provides for benefits retroactive to April 1, 1999.

There have been no plan amendments, plan settlements and curtailments or temporary deviations from these plans in 2013 (no changes in 2012).

Actuarial valuations were completed for these plans as of April 1, 2011. The valuations were based on a number of assumptions about future events including inflation rates (2.0%), interest rates (inflation, plus 2.8%), return on assets (inflation, plus 2.8%), increases in remuneration (inflation, plus 1.0%), and mortality. The assumptions used reflect the best estimates as approved by the Management and Services Board of the Legislative Assembly. The valuations were performed using the projected unit credit actuarial cost method. The asset valuation method, market-related value, for the LARAF plan is equal to a smoothed market value which spreads the difference between the actual and expected investment income over a four year period. The effective date of the next actuarial valuations for these plans is April 1, 2014.

Retirement benefits are payable to a MLA based on a percentage of the average best earnings over four consecutive years as a MLA and as a Minister, Speaker or Chairperson (if applicable) multiplied by credited service as a MLA and for each of the three positions (if applicable). A position must be held for at least one year, and the pension for each position is calculated separately. The percentages used to calculate retirement benefits are 2% for the LARAF and 3% for the SRAF.

The normal retirement age under both of these plans is the earliest of: (a) age 60; (b) 30 years of service; or (c) age plus service equals 80. A MLA may retire at any time upon ceasing to be a MLA. Early retirement results in a pension reduction of 0.25% for each month a MLA retires before the normal retirement age. The late retirement age for MLAs is up to age 69.

GOVERNMENT OF NUNAVUT**PUBLIC ACCOUNTS****Notes to Non-Consolidated Financial Statements (unaudited)****March 31, 2013***(in thousands of dollars)***13 PENSION LIABILITIES (continued)**

The pension liabilities represent the excess of the actuarial present value of accrued pension benefits over the actuarial value of net assets available for benefits.

Based on information provided for the year by the plans' actuary, the MLA pension liabilities as of March 31 are as follows:

	LARAF	SRAF	2013	2012
Accrued benefit obligation	6,357	8,161	14,518	12,680
Deduct:				
Pension fund assets	6,480	-	6,480	5,372
Unamortized actuarial (gains) losses	65	135	200	480
	6,545	135	6,680	5,852
Pension (asset) liability	(188)	8,026	7,838	6,828

As at March 31, 2013, the LARAF pension fund assets had a market value of \$6,683 (2012 - \$5,448). The actual rate of return was positive 10.13% (2012 - 3.3%). The SRAF has no pension fund assets; however, the pension liability is funded all or in part by designated investments (Note 9).

LARAF and SRAF actuarial gains/losses are amortized over 1.6 and 1.7 years respectively (2012 - 2.6 and 2.7 years respectively) which is the estimated average remaining service lives for contributors to these plans.

The total expenses related to MLA pensions include the following components:

	LARAF	SRAF	2013	2012
Current period benefit cost	783	1,116	1,899	1,697
Amortization of actuarial (gains) losses	47	87	134	268
	830	1,203	2,033	1,965
MLAs contributions	(192)	-	(192)	(178)
Pension expense	638	1,203	1,841	1,787
Interest cost on the average accrued benefit obligation	294	388	682	605
Expected return on average pension plan assets	(287)	-	(287)	(229)
Pension interest expense	7	388	395	376
Total pension expenses	645	1,591	2,236	2,163

Pension benefits paid for the LARAF and SRAF were \$106 and \$636, respectively (2012 - \$674 and \$620, respectively).

The Government's contributions related to the LARAF and SRAF during the year were \$589 and \$1,147, respectively (2012 - \$873 and \$950, respectively).

14 OTHER POST-EMPLOYMENT BENEFIT LIABILITIES

In addition to pension benefits, the government provides severance and removal benefits to employees. The cost of these benefits accrue either as employees render service or upon the occurrence of an event resulting in eligibility for benefits. These benefit arrangements are not prefunded and thus have no assets set aside to fund them, resulting in deficiencies for the arrangements equal to the accrued benefit obligations which are estimated actuarially using information and assumptions approved by management.

	2013	2012
Severance	10,517	11,132
Removal	8,663	9,200
	19,180	20,332

GOVERNMENT OF NUNAVUT**PUBLIC ACCOUNTS****Notes to Non-Consolidated Financial Statements (unaudited)****March 31, 2013***(in thousands of dollars)***15 MORTGAGE PAYABLE**

Mortgage payable in annual instalments to the year 2020, bearing interest at a rate of 6.9% compounded semi-annually.

	2013	2012
	3,276	3,595
Future mortgage payments consist of:		
2014	342	212
2015	366	188
2016	391	163
2017	419	135
2018	448	106
2019 and beyond	1,310	1,427
	3,276	4,197

Interest expense on the mortgage payable was \$233 for the year (2012 - \$254). The interest paid on the mortgage payable during the year was \$235 (2012 - \$256).

16 CAPITAL LEASE OBLIGATIONS

Capital lease obligations are based upon contractual minimum lease payments for the leases in effect as of March 31.

	2013	2012
Total minimum lease payments	77,757	88,347
Less: Imputed interest	(17,685)	(22,068)
Present value of minimum lease payments	60,072	66,279

Minimum lease payments, including principal and interest, for each of the next 5 years and thereafter are as follows:

	Principal	Interest	Total
2014	6,650	3,941	10,591
2015	7,124	3,467	10,591
2016	7,631	2,960	10,591
2017	8,226	2,414	10,640
2018	8,812	1,828	10,640
2019 and beyond	21,629	3,075	24,704
	60,072	17,685	77,757

Lease payments are allocated between repayment of the liability and interest expense. The total minimum lease payments less the initial liability represents the total interest cost of the lease. The interest expense is calculated using the same discount rate used in computing the present value of the minimum lease payments applied to the outstanding lease liability at the beginning of the lease payment period.

Interest expense related to capital lease obligations for the year was \$4,383 (2012 - \$4,796) at an implied average interest rate of 7.0% (2012 - 7.0%). The capital lease obligations expire between 2020 and 2027.

17 DEFERRED CAPITAL CONTRIBUTIONS

	2013	2012
Deferred capital contributions (Note 2(a))	-	76,336

18 PETROLEUM PRODUCTS STABILIZATION FUND

The Petroleum Products Stabilization Fund was created under the authority of the *Revolving Funds Act*. The purpose of the Fund is to stabilize the prices of petroleum products purchased, sold, and distributed by the Government. The net profit (loss) of the Petroleum Products Revolving Fund is charged to the Petroleum Products Stabilization Fund. The accumulated surplus or deficit balance in the fund cannot exceed \$10,000.

	2013	2012
Surplus, beginning of year	10,000	10,000
Petroleum Products Revolving Fund net profit (loss) for the year	(13,614)	771
Minimum transfer required to Consolidated Revenue Fund	-	(771)
Surplus (deficit), end of year	(3,614)	10,000

GOVERNMENT OF NUNAVUT**PUBLIC ACCOUNTS****Notes to Non-Consolidated Financial Statements (unaudited)****March 31, 2013***(in thousands of dollars)***19 CONTRACTUAL OBLIGATIONS**

The Government has entered into agreements for, or is contractually obligated for, the following payments subsequent to March 31, 2013:

	Year of Expiration	Total
Capital commitments	2016	45,221
Operational commitments	2018	78,569
Policing agreement	2032	684,000
Operating leases (Schedule 5)	2027	54,082
		861,872

Contractual obligations by fiscal year are as follows:

2014	127,693
2015	70,841
2016	53,271
2017	45,136
2018	42,552
2019 and beyond	522,379
	861,872

In addition to the above, in fiscal 2011, as a result of a public request for proposal, the Government entered into contract arrangements for the supply of petroleum products for a five year term, ending after the 2015 re-supply season. Under the terms of this agreement, estimated minimum fuel volume purchases for the 2013 summer re-supply season are as follows:

	Total
	<i>(thousands of litres)</i>
Diesel	15,382
Gasoline	2,483
Jet fuel	3,390
	21,255

There are no estimated minimum fuel volume purchases for the 2014 or 2015 summer re-supply seasons outlined in the agreement.

20 CONTINGENCIES**(a) Post-division adjustments**

The agreement governing the division of assets and liabilities between the Government of Nunavut and the Government of the Northwest Territories as at April 1, 1999 sets out a mechanism which provides for post-division adjustments.

The period for such adjustments is unlimited; and such adjustments could be made in a variety of specified circumstances such as the settlement of litigation related to events prior to the date of division. In such an event, there is an opportunity for one of the governments to file a claim against the other government to share in costs. Post-division adjustments will be recognized in the year the liability can reasonably be estimated. As at March 31, 2013, no new post-division adjustments were recorded.

(b) Environmental restoration costs

The Government recognizes that there are costs related to the restoration of any contaminated sites situated on lands within the Territory. Liabilities have been accrued in the non-consolidated financial statements when it has been determined that the Government is liable for a contaminated site and where a reasonable estimate of the remediation costs can be made. The Government's ongoing efforts to assess contaminated sites may result in additional environmental liabilities related to newly identified sites, or changes in the assessments or intended use of existing sites. Any additional liabilities will be accrued in the year in which they become known.

The Government will continue to implement a program of site inspection, assessment and remediation on an ongoing basis. To facilitate this, the Government has established a committee to ensure all existing and potential liabilities are identified and appropriate actions initiated. This is an ongoing process which should show continuous improvement each year as the Government continues to work in a practical manner towards the determination and appropriate recognition of its environmental liabilities within the Territory.

(c) Litigation

A number of cases of alleged sexual abuse by former employees or contractors in Nunavut when it was part of the Northwest Territories have been filed or are pending. The Nunavut and the Northwest Territories governments will jointly defend any such proceedings and the cost of defending the actions and any damages that may eventually be awarded will be shared by the two governments 44.34% and 55.66%, respectively. An estimate of any liability that may result from these actions is not determinable at this time; consequently no liability has been accrued.

There are a number of claims and threatened litigation cases outstanding against the Government for which the outcomes are not determinable, including a number of cases where an amount is not specified. The nature of these claims include wrongful dismissal, breach of policy, personal injury, sexual abuse, negligence, wrongful arrest and assault. As of March 31, 2013, all of these claims have been assessed as being either without merit or not determinable at this time.

GOVERNMENT OF NUNAVUT**PUBLIC ACCOUNTS****Notes to Non-Consolidated Financial Statements (unaudited)****March 31, 2013***(in thousands of dollars)***20 CONTINGENCIES (continued)****(d) Pay equity**

There are a number of pay equity claims outstanding against the Government of Nunavut primarily for job rating evaluations of specific trades. The Government is working with Nunavut Employees Union in order to resolve the claims. However, the outcome of these claims is not currently known. As of March 31, 2013, no provision has been made in these financial statements.

(e) Loan guarantees

As part of its financing, the Qulliq Energy Corporation (QEC) has arranged various credit facilities at different terms and interest rates. The Government has guaranteed the following QEC credit facilities:

	2013	2012
Bank credit facility, interest at prime minus 0.50%	4,114	1,894
20 year redeemable amortizing debenture due 2021, interest rate of 6.809%	44,941	47,448
Fixed rate capital loan facility due 2021, interest rate of 4.24%	3,451	3,799
Fixed rate capital loan facility due 2021, interest rate of 4.24%	4,404	4,846
Fixed rate capital loan facility due 2021, interest rate of 4.24%	6,182	6,799
Fixed rate capital loan facility due 2032, interest rate of 4.24%	4,618	4,775
Fixed rate capital loan facility due 2021, interest rate of 4.24%	11,188	12,285
Floating rate capital loan facility due 2022, with an option to extend by up to 10 years at the discretion of the lender, interest rate of prime minus 0.50%	19,667	-
Total guarantees provided on balances outstanding	98,565	81,846

The QEC bank credit facility limit is \$12,000 (2012 - \$12,000).

Based on its operational needs, the Nunavut Development Corporation (NDC) may from time to time be in a bank overdraft position. The overdraft is guaranteed by the Government, and interest on the overdraft is charged based on a rate of prime plus 0.50% per annum. Interest is charged only when NDC's operating account is in an overdraft position and the pooled accounts of the Government are also in an overdraft position. As at March 31, 2013, NDC's bank overdraft position was \$8 (2012 - \$22).

21 RELATED PARTIES

Transactions with related parties and balances at year-end, not disclosed elsewhere in the financial statements, are disclosed in this note. During the year, the Government made grants and contributions to or funded other costs for the following related parties:

	2013	2012
Nunavut Arctic College	2,975	2,718
District Education Authorities	14,267	15,546
Qulliq Energy Corporation	11,169	11,350
Nunavut Development Corporation	3,435	3,979
Nunavut Business Credit Corporation	662	600
Total	32,508	34,193

Under agreements with related boards and agencies, the Government provides services at cost or for a service fee where direct costs cannot be determined. The fees charged for indirect costs are not necessarily the cost of providing those services. Services provided include personnel, payroll, financial, procurement, accommodation, buildings and works, utilities, legal, and interpretation services. Direct costs of \$38,019 (2012 - \$36,539) were incurred and recovered from related parties. Grants and contributions from the Government of Nunavut to Nunavut Arctic College and Nunavut Housing Corporation are disclosed separately in the Schedule of Expenses Funded under Approved Appropriations (Schedule B.1).

GOVERNMENT OF NUNAVUT**PUBLIC ACCOUNTS****Notes to Non-Consolidated Financial Statements (unaudited)****March 31, 2013***(in thousands of dollars)*

22 TRUSTS UNDER ADMINISTRATION

The Government administers trust accounts on behalf of third parties, which are not included in the reported Government assets and liabilities.

	2013	2012
Public Trustee	3,917	3,729
Victims' Assistance Trust	464	458
Natural Resources Conservation Trust	286	283
Territorial Court Trust	198	802
Maintenance Enforcement Trust	70	114

Nunavut Labour Standards Board Trust	3	3
Rankin Inlet Inmate Fund	2	-
HSS - Akauisarvik	2	6
Young Offenders Welfare Trust	-	15
	5,028	5,512

23 BUDGET ADJUSTMENTS

The 2013 total revenue budget of \$1,602,603, includes \$1,476,324 of 'Revenues' and \$72,195 of 'Vote 5 Revenues' on page A-IV-4 of the 2012-2013 Main Estimates, plus \$54,084 of funding under third-party agreements for specific capital projects included in Appendix IV of the 2012-2013 Capital Estimates. The planned expenses to be funded by these additional revenues have been added to the affected budget totals disclosed in these statements.

The 2013 budget total for Capital expenditures on Schedule B.2 of \$54,084 excludes the \$4,290 of CMHC capital projects budgeted for Nunavut Housing Corporation presented in Appendix IV of the 2012-2013 Capital Estimates. As a result, the budget totals for 'Vote 4 Expenses' and 'Vote 5 Revenues' (i.e., Transfers under third-party funding agreements) included in these statements is \$126,279 versus \$130,569 on page x of the 2012-2013 Main Estimates.

24 SUBSEQUENT EVENTS

In September 2013, the Government signed agreements as part of a public-private partnership arrangement to design, build, finance, operate and maintain new and updated infrastructure at the Iqaluit International Airport. The design and construction components are scheduled to be completed by December 2017 at an estimated cost of \$299.0 million. The operations and maintenance components are scheduled to start July 2014 at an estimated net present cost of \$191.8 million over the life of the contract, which ends in December 2048. The capital costs of the arrangements will be partially funded by up to \$73 million from PPP Canada.

25 COMPARATIVE INFORMATION

Certain comparative figures have been reclassified to conform to the current year's presentation.
